NEWSLETTER

Smeeta Jhunjunwala

There is a lot that this year has taught us about ourselves, our relationships, our passions and our values.

If we could take the pandemic away in an instant, we would, but we can't and so instead we look for the silver lining. From tough times come tough lessons, personal growth and learning opportunities.

HOPE Taking the leap and doing the thing rather than waiting for time to pass by become my motto. With the help of our members, family and friends we could do more than 100 projects. The year 2020 taught me that life is unpredictable. And the gift of life what we have is the most precious gift to have. HEALTHCARE, OLD AGE ,ORPHANAGE , PATRIOTISM AND ENVIRONMENT became our AIM!

Actions matter more than words.

Dreaming is different to doing and saying something nice is different to showing up and being there for the people you care about or your community. IWCBB made choices that have a positive impact on the environment that we live in.

Find happiness in simple things.

You need darkness in order for there to be light, and so having everything shut, cancelled and taken away from us has re sparked the joy of small, happy moments. For us still moment of respite found drinking coffee in a sunny window. For the unfortunate students we gave them the means to educate and learn new skills.

Slow down Breathe in. Breathe out. This year showed us just how much time we can have and how important is the air we breathe and the environment around us ... Being shut indoors for weeks or months at a time showed us the importance of simple living, stable roofs and waste management. We planted trees, repaired homes and helped our ecosystem of welfare to animals. We gave the means of being self-sufficient to villagers by making wells for them and restoring old wells. They learned how to conserve water and use the power of solar energy to reduce wastage.

Follow your passions first do the things that light a fire in your heart. The year 2020 taught us that life doesn't wait for anyone, so why waste your precious hours waiting for the right opportunity. The Online NGO Bazaar was a Naya Prayaas for all those NGOS who couldn't sell their wares to support their cause due to the pandemic. We as educated and privileged citizens helped that happen with the use of technology. The Walkathon on Independence Day helped us relive the day and help our Jawans. The enthusiastic women cricket team from Kashmir were delighted to meet a cricket legend and be in this fascinating city of ours. I felt PROUD TO BE AN INDIAN. I'm sure you did too!

Difficult times reveal the truth. It can be funny how difficult times show us the truth about life and about the people around us. Did any of your relationships or friendships fizzle out or reignite during 2020? Maybe the Zoom video calls were a chance to reconnect with friends on the other side of the world. We connected and members who couldn't make it earlier due to commitments finally could participate and feel the oneness of our club. In zoom meeting we learned new skills, new recipes, new fitness regimes and the **NEW NORMAL TO COMMUNICATE!**

Make self-care a priority, not a privilege.

Looking after your health and safety has to come first. To support your friends and family around you in their time of need, you need to be working from a strong base. Putting yourself as number one in your life, taking space when you need it.

This journey which I had embarked upon 10 years back truly got its purpose this year. I was destined to **LEAD THE CHANGE!** I thank you all for giving me the chance to the **CHOICE I MADE.**

District Chairman Amala Mehta

My Greetings to members of Inner wheel club of Bombay Bayview and Best wishes to President Grishma Doshi and team 2021-22.

Hearty congratulations to President Smeeta Jhunjunwala and team 2020-21 for doing excellent work in the Pandemic times. I am extremely proud and happy President Smeeta for your achievements. I appreciate your commitment and dedication to the club. You turned challenges into opportunities and reached out to thousands of people in need. You not only did worthy projects but stayed connected with members by having great fellowships and Awareness seminars virtually.

Humanity has faced one of its biggest challenges of surviving amidst the pandemic. Inner Wheel members and clubs took up the challenge of the unprecedented times and doing their best without wavering in the commitment to serve the needy and underprivileged. I feel we are blessed to have served the people when help was most needed. We have achieved several milestones in the year. Social distancing kept us apart, but we used technology in best possible ways to stay connected. We truly lived up to the Theme of the year, **Lead the Change**.

Time somehow seems to fly when its dedicated to the wellbeing of fellow human beings. As they say, "Art of living is in the joy of giving" and all of us are experiencing this joy. There is a thin line that separates laughter and pain, comedy and tragedy, humor and hurt. Life they say is to live and celebrate and not try and find out the meaning of it. The year gone by has truly emphasized the fact like never before. I am confident that IWC of Bombay Bayview will continue to initiate worthy projects in all avenues. My best wishes.
